

Acuity System Pricing

We don't believe in charging you a higher price for features you don't use. Choose the plan that works for your needs. Plan 49 is the best way to expand your existing practice quickly by adding core Acuity Testing features to a new computer or a new lane. Plan 69 adds a host of functionality to your system for more advanced needs. Plan 139 gives you fully featured software and hardware in an integrated package.

Plan 49

\$49 per month, per computer

- The most complete acuity testing system on the market with one simple price
- Acuity system updates automatically installed via the internet
- Unlimited technical support via: phone, e-mail, and direct connections to your acuity system if you ever need us
- Free remote control and receiver
- Guaranteed pricing (your pricing will never increase)
- Unlimited free license transfers if your hardware ever needs to be changed
- Cloud based technology that provides quick installations, auto updates and upgrades, back-ups of your preferences, and registration

Plan 69

\$69 per month, per computer

- Get everything in Plan 49 plus more
- EyeMotion patient education animations with automatic updates
